Quantitative Entry: 06.07.2011

Individual Entry: 24.08.2011

City info

Otočec is a settlement by the river Krka in the Novo Mesto municipality in southeastern Slovenia. Otočec is famous for its romantic castle, first mentioned in written documents in the 13th century, built on a small island in the middle of the Krka river. It also offers many other things to the visitors, with emphasis on sports and recreation; the Castle Park and nearby forests offer plenty of possibilities for walks and slightly longer tours, certainly one should not overlook the Krka river, where you can spend your free time boating, fishing or relaxing to the sound of water gently pouring through the dams. If you are a lover of golf or want to become one, in the immediate vicinity of Otočec castle there is a golf driving range. The vicinity of Novo mesto offers even more possibilities to engage in sports activities. There are a few institutes of higher education in Novo mesto, and a strong community of local students studying also at other universities in Slovenia.
